COVID-19

Quarterly Weapons Qualification Suspended for All Sworn Members and Security Officers

Effective April 1, 2020, the Department will suspend the quarterly weapons qualification (3-01/050.65 - Basic Shooting Requirement) until further notice. All sworn members and Security Officers are still required to meet the first quarter 2020 weapons qualification requirement which ends Tuesday, March 31, 2020.

If an employee returning to work after an extended period of time off (Military Leave, IOD, other...) needs to qualify beginning April 1, 2020; the unit or individual can **contact Training Bureau's Weapons Training Unit** to schedule a time to qualify. All required Department members who qualify in the first quarter of 2020 will be within the requirements set forth by POST.

All Department members are reminded to use social distancing practices when utilizing any Department facility or range trailer to qualify.

Personnel should be aware that the air system in the range trailers does not recirculate. The air system continually takes in fresh air while in operation.
